

MISSION STATEMENT

The Mission of The Women's Center of Northwest Indiana is to act as Ambassadors of Christ by promoting the value of unborn human life, and by ministering to women and their families who are considering or vulnerable to abortion.

The Women's Center of Northwest Indiana is committed to reaching this mission by providing the best care possible to those clients we serve. The goal is to show the love of Christ in our communities by being salt and light to those making hard decisions about the life of their unborn child.
